

Release Notes

ATOMOS 8.41

SUM019M

New Function:

- ▶ Improved Black Levels and screen response. Now comparable with industry standard Rec709 OLED/LCD monitors.
- ▶ Added complete SMPTE 6G SDI compatibility for Audio Embedding, Timecode and start stop trigger enabling full compatibility with Panasonic EVA1, ARRI Alexa Mini, other 6G cameras and switchers.

Bug Fixes:

- ▶ Fixed an issue where the HDR slider value was not saved when using auto HDR Mode.
- ▶ Auto HDR mode. 20% improvement to system start up time.
- ▶ Improved panel motion response and processing.
