

Atomos Firmware Upgrade

Ninja Flame 7.2 release notes

FID: 060917200207

Features

- ✓ **Fixed an intermittent video monitoring issue in HDR mode**

Previous Ninja Flame 7.13 release notes:

- Increased precision of the EOTF resulting in more detail and higher accuracy in the shadows for HDR monitoring.
- Hybrid Log/Gamma (HLG) in and out can now be accessed from the Monitor page
