

Release Notes

ATOMOS 9.01

SHOGUN INFERNO

New Function:

- ▶ ProRes RAW capture
- ▶ ProRes RAW playback
- ▶ Support for Panasonic EVA1 Raw
- ▶ Enhanced focus peak options
- ▶ Sony Raw loop out support
- ▶ Arri file naming support
- ▶ HLG support for Panasonic GH5
- ▶ Added the option to pause video during slow motion playback

Fixes:

- ▶ 25% improvement in record <-> playback transition time
- ▶ Fixed occasional Record to Play mode switching issues
- ▶ Loop out during playback of 4kDCI60 is now configured to 4kDCI60 rather than 4kDCI30.
- ▶ 9.01: Fixed an issue on some units where the screen appeared too dark when there was no video input.
